

## Windows Mobile 6 on the Treo 750: we got the confirmation

Contributed by Amstel  
Wednesday, 07 March 2007

sgbmad over our sister site palManiac has received a written confirmation of Palm that Treo 750 users will be able to upgrade to Windows Mobile 6. No word still about when or if it will be priced or not. The customer service over at Palm suggest that this upgrade would come via firmware upgrade on the Palm Support site. We hope it will come soonest!!
